Objective

- To provide students with the opportunity to apply skills to real world problems.
- Projects will be determined by start of class, could be up to 3- 4 teams, **below are past examples**
  - ETSE Schedule WebSite - Client: Lynn Kelly (lskelly@nmsu.edu)
  - ABET Assessment Website - Client: Dr. Sassenfeld(rolfe@nmsu.edu)
  - Exception Ease

Requirements

- **Project web site**
  - The team will develop a personal web site that will contain everyone’s resume, timelines, bi-weekly reports/updates and other requirements as per the instructor and/or client. I will review the project websites every other Monday morning.
  - Every one will hand in a bi-weekly reports/updates to be posted on the website every other week. *Each member must submit what tasks they have completed and goals for the next two weeks* A weekly grade for each member will be given.

- **Project presentation**
  - Near the end of the semester I will request time slots for project presentations to take place in the last week of the semester. We will use Adobe Connect or Google hangout in addition to any "live" presentation materials used. Every team member must be present (live or virtually).

- **Clients**
  - Team leaders will keep in close contact with the client, sometimes other members will have to attend meetings. This will be determined by the client. If problems develop contact the instructor. Clients should have access to your project website. Clients may require a final report, ask them upfront. Clients will typically want to attend the presentation be sure that they will be available before selecting a time slot.
**GRADING**

**Tentative Grading Algorithm:**

Grades for the participation will be determined from the weekly reports and/or presentation and evaluation by the team leader, client and course instructor.
